

CROSSLINKS
DISABILITY SUPPORT SERVICES

Bringing out the best in you

About Crosslinks

Crosslinks has proudly supported people with a disability since 1996. Our fabulous team of more than 200 employees provide support services to hundreds of people across the Perth metropolitan area from our base in Midland. We are a National Disability Insurance Scheme (NDIS) registered provider and have been part of the scheme since its inception, so we understand how the NDIS operates. Importantly, Crosslinks is a not-for-profit organisation, so our profits are invested back into delivering and improving the services and supports we provide to for participants.

Who We Help

Crosslinks' services are available to anyone with a disability, if we are confident we can meet your needs. Before supporting new participants, we carefully ensure we have the right skills to provide quality care and positive experiences for you. We primarily help people with autism, intellectual disabilities, cerebral palsy, developmental delays and/or related disabilities however please call us to discuss your individual needs.

Our Team

The Crosslinks team are a group of dedicated, passionate people who believe in human rights and equal opportunity.

We Love Helping Young People

Our vibrant, energetic, caring team particularly enjoy working with young people. We have many participants who started at Crosslinks when they were young and have been with us for many years, which is very special. Crosslinks has four main services that are accessed by younger people.

1. Youth Club and RAP Club

The Crosslinks Youth Club and RAP (recreation and participation) Club, are our popular social clubs for people with a disability, with all the activities chosen by members.

Youth Club is for people 17 years of age and under. Mingle with people your own age, make new friends, learn new skills and have lots of fun. Enjoy fortnightly activities like seeing the latest movie, dancing at concerts, singing karaoke, or enjoying fish and chips on the beach.

Once you turn 18, RAP Club is the social club for you. There is a fortnightly, Saturday day RAP Club and a Saturday night RAP Club. The day RAP Club is for individuals who are looking to build friendships and attend activities such as museums, farmers' markets and craft classes. The night RAP Club is for individuals who would like to experience more of Perth's evening events.

2. Community Activities

Crosslinks runs community activities like karaoke, drumming, art, and music in Perth's eastern suburbs, and everyone is welcome. These sessions are especially popular during school holidays when students join in. Crosslinks also hosts a variety of themed discos throughout the year which are always favourite events. See the schedule at crosslinks.org.au/events.

3. Community Participation Services

Crosslinks helps people with a disability to achieve their NDIS goals and be active in their community. Our caring, qualified, Disability Support Workers, can help you with the goals in your NDIS plan. For example, they may pick you up to go to an appointment, help cook a meal, or spend the day with you at a local event. It is all about doing the things you need and want to do, promoting independence, learning new skills and having an enjoyable time. A personalised care plan will be on file so every Disability Support Worker will know how you like to be supported.

4. Support Coordination

Crosslinks can help anyone with an approved NDIS plan, to understand and translate their high-level plan into the specific supports and services needed. Our highly experienced team have many years of experience in the disability sector and a thorough understanding of the NDIS, so they can obtain the best outcome for you. Our Support Coordinators are completely independent, and you make all the decisions. Specifically our team can help you:

- ✓ Navigate the NDIS as it can be overwhelming at times
- ✓ Maximise the best value for your NDIS funding
 - ✓ Develop confidence in your ability to choose and manage providers
 - ✓ Learn how to direct your own supports if you would like to
 - ✓ Explore possible connections in your community
 - ✓ Overcome challenges and resolve points of crisis
 - ✓ Liaise with Government agencies.
