

What is an Advocate

An advocate is someone who helps you tell others what you want and need.

An advocate is someone who is

- On your side
- Gives good information and advice
- Helps tell people your decisions
- Helps you solve problems

If you are worried about your services or feel people are not listening to what you need, you can contact an advocate.

A list of Advocates is below.

You can ask someone you know at Crosslinks if you need help to contact an advocate.
